

Rabih Aoun

Web Developer & UI/UX Designer

✉ rjaoun@gmail.com ☎ (647) 569-8471 📍 Waterloo, ON 🌐 rabihaoun.netlify.app

Professional Summary

Web developer and UI/UX designer focused on building fast, accessible, and visually polished web applications. With a foundation in computer programming and web development, I design and build responsive interfaces, wireframes, and interactive experiences that balance clean aesthetics with solid engineering. Comfortable across the full stack, from modern front-end frameworks to RESTful APIs and databases.

Experience

Full Stack Web Developer 2024

Budget Tracker - Personal Finance Web Application

- Built a responsive personal finance web app with React, TypeScript, and Node.js
- Implemented real-time data sync, drag-and-drop UI, and interactive analytics dashboards
- Designed the PostgreSQL database schema and RESTful API with 95% test coverage
- Deployed on Replit with automatic scaling and HTTPS configuration

Frontend Developer & UI Designer 2023

Islamic Sticker Haven - Cultural E-commerce Store

- Designed and built a culturally-conscious e-commerce storefront with React
- Implemented product customization flows that guide users through personalization
- Used Shadcn UI and Tailwind CSS to create a cohesive, accessible design system

Web Developer & UX Designer 2023

RenTools - Community Tool-Sharing Platform

- Developed a community platform connecting tool owners with renters
- Designed user flows that build trust and make listing, browsing, and contact frictionless
- Created responsive layouts that work seamlessly across mobile, tablet, and desktop

Technical Skills

Frontend Development
